

# INDEXES

## 1999 SUBJECT INDEX

### Aluminum

- Cement-mortar Pipes as a Source of Aluminum  
*Kenrick Berend and Tom Trouwborst* ..... 91:7:91
- Bioavailability of Al in Alum-treated Drinking Water  
*Jennifer L. Stauber, T. Mark Florence, Cheryl M. Davies, Merrin S. Adams, and S. John Buchanan* ..... 91:11:84

### Analytical methods

- ICR Protocol—Alternative Treatment of Parasite Sample Data  
*Thomas B. Atherholt and Leo R. Korn* ..... 91:3:95
- Isotopic Uranium Activity Ratios in California Groundwater  
*Carolyn T. Wong, Howard S. Okamoto, Alexis M. Milea, S. Kusum Perera, and Frank J. Baumann* ..... 91:4:171
- USEPA Method 1622  
*Jennifer L. Clancy, Zia Bukhari, Randi M. McCuin, Zoë Matheson, and Colin R. Fricker* ..... 91:9:60
- Evaluation of Four Commercial Antibodies  
*Rebecca Hoffman, Christian Chauret, Jon Standridge, and Linda Peterson* ..... 91:9:69
- Using Ion Chromatography to Detect Perchlorate  
*Howard S. Okamoto, Dharmendra K. Rishi, William R. Steeber, Frank J. Baumann, and S. Kusum Perera* ..... 91:10:73

### Anthracite

- Estimating the Porosity of a Full-scale Anthracite Filter Bed  
*R. Rhodes Trussell, Melissa M. Chang, John S. Lang, and Willie E. Hodges Jr.* ..... 91:12:54

### Arsenic

- Arsenic Treatment Considerations  
*Hsiao-wen Chen, Michelle W. Frey, Dennis Clifford, Laurie S. McNeill, and Marc Edwards* ..... 91:3:74  
 (See also: Letters ..... 91:6:4)
- Combined Arsenic and Nitrate Removal by Ion Exchange  
*Ganesh L. Ghurye, Dennis A. Clifford, and Anthony R. Tripp* ..... 91:10:85

### Atrazine

- Atrazine Removal by Preloaded GAC  
*Detlef R.U. Knappe, Vernon L. Snoeyink, Pascal Roche, Maria José Prados, and Marie-Marguerite Bourbigot* ..... 91:10:97

### Biological activated carbon

- Reduction of Bromate in a BAC Filter  
*Mary Jo Kirisits and Vernon L. Snoeyink* ..... 91:8:74

### Bacterial regrowth

- Influence of NF on Distribution System Biostability  
*Isabel C. Escobar and Andrew A. Randall* ..... 91:6:76

### Benchmarking

- Assessing Performance Benchmarking  
*Bruce H. Andrews, Paul D. Schumann, and Tracy L. Gowen* ..... 91:11:56
- Utility Benchmarking on the West Coast  
*Linda L. Paralez* ..... 91:11:65

### Biological processes

- Reduction of Bromate in a BAC Filter  
*Mary Jo Kirisits and Vernon L. Snoeyink* ..... 91:8:74
- Microbiological Quality Before and After Nanofiltration  
*Patrick Laurent, Pierre Servais, Dominique Gatel, Guy Randon, Pascal Bonne, and Jacques Cavard* ..... 91:10:62

### Bromate

- Reduction of Bromate in a BAC Filter  
*Mary Jo Kirisits and Vernon L. Snoeyink* ..... 91:8:74

### Capacity development

- Capacity Development: The Small System Perspective  
*Alan D. Soelter and Ellen G. Miller* ..... 91:4:110

### Chloramines

- Safeguarding Distribution System Integrity  
*R. Rhodes Trussell* ..... 91:1:46
- Using Chlorite Ion to Control Nitrification  
*Michael J. McGuire, Nancy I. Lieu, and Marie S. Pearthree* ..... 91:10:52

### Chlorination

- The Disinfectant Residual Dilemma  
*Roundtable* ..... 91:1:24
- Safeguarding Distribution System Integrity  
*R. Rhodes Trussell* ..... 91:1:46
- Benefits of Using a Disinfectant Residual  
*Charles N. Haas* ..... 91:1:65
- The Case for Maintaining a Disinfectant Residual  
*Mark W. LeChevallier* ..... 91:1:86
- Booster Chlorination for Maintaining Disinfectant Residuals  
*Michael E. Tryby, Dominic L. Boccelli, Margaret T. Koechling, James Uber, R. Scott Summers, and Lewis A. Rossman* ..... 91:1:95

### Chlorine dioxide

- Safeguarding Distribution System Integrity  
*R. Rhodes Trussell* ..... 91:1:46

## Chlorite ion

### Using Chlorite Ion to Control Nitrification

Michael J. McGuire, Nancy I. Lieu, and  
Marie S. Pearthree .....91:10:52

## Coagulation

### Ferric Chloride Plus GAC for Removing TOC

Kirk O. Nowack, Fred S. Cannon, and  
Harish Arora .....91:2:65

### Modeling Enhanced Coagulation to Improve Ozone Disinfection

Daniel Urfer, Peter M. Huck, Graham A. Gagnon,  
Dennis Mutti, and Franklyn Smith .....91:3:59

### Predicting Full-scale TOC Removal

Tai Tseng and Marc Edwards .....91:4:159

## Committee Reports

### Committee Report: Design and Installation of PE pipe

AWWA Polyolefin Pressure Pipe and Fittings  
Committee .....91:2:92

### Committee Report: Emerging Pathogens—Bacteria

AWWA Research Division Microbiological  
Contaminants Research Committee .....91:9:101

### Committee Report: Emerging Pathogens—Viruses, Protozoa, and Algal Toxins

AWWA Research Division Microbiological  
Contaminants Research Committee .....91:9:110

## Computers

### Y2K: Are Small Systems Ready?

Kathy Jespersion .....91:2:12

### Enforcement Policy Issued for Y2K Testing

Frederick W. Pontius .....91:2:16

### Preparing Utility Computer Systems for the Year 2000

Robert L. Ladner and Gary A. Leake .....91:2:38

### Surfing the Web for Water Quality Data

Gay Porter DeNileon .....91:2:46

### Converting Utility Data for a GIS

James R. Cannistra .....91:2:55

## Conservation

### Using Conservation Rate Structures

Jeffrey L. Jordan and Rick Albani .....91:8:66

## Construction

### DBO and DBM Gain Popularity

Roundtable .....91:4:18

## Corrosion

### Desktop Guidance for Mitigating Pb and Cu Corrosion By- products

Marc Edwards, Sara Jacobs, and  
Donna Dodrill .....91:5:66

### Comparison of Mineral Acid Pretreatments for Sulfide Removal

Steven J. Duranceau, Robert K. Anderson,  
and Robert D. Teegarden .....91:5:85

### Inspecting Systems for Leaks, Pits, and Corrosion

Jon Makar and Nathalie Chagnon .....91:7:36  
(See also: Letters .....91:11:4)

### Ion Exchange Softening: Effects on Metal Concentrations

Thomas J. Sorg, Michael R. Schock, and  
Darren A. Lytle .....91:8:85

## Cross-connection

### Wet-pipe Fire Sprinklers and Water Quality

Steven J. Duranceau, Jack Poole, and  
Jacqueline V. Foster .....91:7:78

## Cryptosporidium

### Medium-pressure UV for Oocyst Inactivation

Zia Bukhari, Thomas M. Hargy, James R. Bolton,  
Bertrand Dussert, and Jennifer L. Clancy .....91:3:86

### ICR Protocol—Alternative Treatment of Parasite

Sample Data  
Thomas B. Atherholt and Leo R. Korn .....91:3:95

### Uses of Protozoan Monitoring Data

Jennifer L. Clancy and Judi Hansen .....91:5:51

### ICR Crypto Data: Worthwhile or Worthless?

Frederick W. Pontius and Jennifer L. Clancy .....91:9:14

### USEPA Method 1622

Jennifer L. Clancy, Zia Bukhari, Randi M. McCuin,  
Zoë Matheson, and Colin R. Fricker .....91:9:60

### Evaluation of Four Commercial Antibodies

Rebecca Hoffman, Christian Chauret, Jon Standridge,  
and Linda Peterson .....91:9:69

### Effect of Filter Media on Cyst and Oocyst

Removal  
Jeff Swertfeger, Deborah H. Metz, Jack DeMarco,  
Anne Braghetta, and Joseph G. Jacangelo .....91:9:90

### Committee Report: Emerging Pathogens—Viruses, Protozoa, and Algal Toxins

AWWA Research Division Microbiological  
Contaminants Research Committee .....91:9:110

## Disinfectants/Disinfection

### By-products Rule

#### Complying With the Stage 1 D/DBP Rule

Frederick W. Pontius and William R. Diamond .....91:3:16

#### Modeling Enhanced Coagulation to Improve Ozone Disinfection

Daniel Urfer, Peter M. Huck, Graham A. Gagnon,  
Dennis Mutti, and Franklyn Smith .....91:3:59

#### DBP Formation Potential of Aquatic Humic Substances

Michael L. Pomes, W. Reed Green, E. Michael Thurman,  
William H. Orem, and Harry E. Lerch .....91:3:103

#### Benefit—Cost Analysis of the Stage 1 D/DBP Rule

Rosemarie Odom, Stig Regli, Mike Messner,  
John Cromwell, and Maggie Javdan .....91:4:137

#### Using Chlorite Ion to Control Nitrification

Michael J. McGuire, Nancy I. Lieu, and  
Marie S. Pearthree .....91:10:52

## Disinfection

### The Disinfectant Residual Dilemma

Roundtable .....91:1:24

### Safeguarding Distribution System Integrity

R. Rhodes Trussell .....91:1:46

### Maintaining Quality Without a Disinfectant Residual

Dick van der Kooij, J. Hein M. van Lieverloo,  
Jon Schellart, and Peter Hiemstra .....91:1:55

Benefits of Using a Disinfectant Residual	
Charles N. Haas	91:1:65
European Regulations on Residual Disinfection	
Owen Hydes	91:1:70
US Regulations on Residual Disinfection	
Susan E. Shaw and Stig Regli	91:1:75
Distributing Groundwater Without a Disinfectant Residual	
Beate Hambsch	91:1:81
The Case for Maintaining a Disinfectant Residual	
Mark W. LeChevallier	91:1:86
Booster Chlorination for Maintaining Disinfectant Residuals	
Michael E. Tryby, Dominic L. Boccelli, Margaret T. Koehling, James Uber, R. Scott Summers, and Lewis A. Rossman	91:1:95
Modeling Enhanced Coagulation to Improve Ozone Disinfection	
Daniel Urfer, Peter M. Huck, Graham A. Gagnon, Dennis Mutti, and Franklyn Smith	91:3:59
Medium-pressure UV for Oocyst Inactivation	
Zia Bukhari, Thomas M. Hargy, James R. Bolton, Bertrand Dussert, and Jennifer L. Clancy	91:3:86
Bacterial Levels of New Mains	
Charles N. Haas, Mukul Gupta, Gary A. Burlingame, Raveendra B. Chitluru, and Wesley O. Pipes	91:5:78
Assessing Ozone Disinfection With Nonbiological Surrogates	
Benito J. Mariñas, Jason L. Rennecker, Susan Teefy, and Eugene W. Rice	91:9:79

## Disinfection, residual

The Disinfectant Residual Dilemma	
Roundtable	91:1:24
Safeguarding Distribution System Integrity	
R. Rhodes Trussell	91:1:46
Maintaining Quality Without a Disinfectant Residual	
Dick van der Kooij, J. Hein M. van Lieverloo, Jon Schellart, and Peter Hiemstra	91:1:55
Benefits of Using a Disinfectant Residual	
Charles N. Haas	91:1:65
European Regulations on Residual Disinfection	
Owen Hydes	91:1:70
US Regulations on Residual Disinfection	
Susan E. Shaw and Stig Regli	91:1:75
Distributing Groundwater Without a Disinfectant Residual	
Beate Hambsch	91:1:81
The Case for Maintaining a Disinfectant Residual	
Mark W. LeChevallier	91:1:86
Booster Chlorination for Maintaining Disinfectant Residuals	
Michael E. Tryby, Dominic L. Boccelli, Margaret T. Koehling, James Uber, R. Scott Summers, and Lewis A. Rossman	91:1:95

## Dissolved-air flotation

Integrating High-rate DAF Technology Into Plant Design	
James K. Edzwald, John E. Tobiason, Tony Amato, and Lawrence J. Maggi	91:12:41

## Distribution systems

Safeguarding Distribution System Integrity	
R. Rhodes Trussell	91:1:46

Maintaining Quality Without a Disinfectant Residual	
Dick van der Kooij, J. Hein M. van Lieverloo, Jon Schellart, and Peter Hiemstra	91:1:55
Benefits of Using a Disinfectant Residual	
Charles N. Haas	91:1:65
European Regulations on Residual Disinfection	
Owen Hydes	91:1:70
US Regulations on Residual Disinfection	
Susan E. Shaw and Stig Regli	91:1:75
Distributing Groundwater Without a Disinfectant Residual	
Beate Hambsch	91:1:81
The Case for Maintaining a Disinfectant Residual	
Mark W. LeChevallier	91:1:86
Booster Chlorination for Maintaining Disinfectant Residuals	
Michael E. Tryby, Dominic L. Boccelli, Margaret T. Koehling, James Uber, R. Scott Summers, and Lewis A. Rossman	91:1:95
Protecting Water Quality in the Distribution System	
Dallas J. Post	91:7:14
Inspecting Systems for Leaks, Pits, and Corrosion	
Jon Makar and Nathalie Chagnon	91:7:36
(See also: Letters	91:11:4)
Using Limited Data to Assess Future Needs	
Yehuda Kleiner and Balvant Rajani	91:7:47
Unidirectional Flushing—A Powerful Tool	
Edward N. Antoun, John E. Dyksen, and David J. Hildebrand	91:7:62
(See also: Letters	91:10:4)
Economic Analysis for Replacing Residential Meters	
Michael D. Yee	91:7:72
Wet-pipe Fire Sprinklers and Water Quality	
Steven J. Duranceau, Jack Poole, and Jacqueline V. Foster	91:7:78
Cement-mortar Pipes as a Source of Aluminum	
Kenrick Berend and Tom Trouwborst	91:7:91
Microbiological Quality Before and After Nanofiltration	
Patrick Laurent, Pierre Servais, Dominique Gatel, Guy Randon, Pascal Bonne, and Jacques Cavard	91:10:62

## Face to Face

From Competition to Consolidation	
Face to Face with Steve Gorden	91:5:14
Improving Global Water Services	
Face to Face with Vincent Bath	91:10:30

## Ferric chloride

Ferric Chloride Plus GAC for Removing TOC	
Kirk O. Nowack, Fred S. Cannon, and Harish Arora	91:2:65

## Filter design

Integrating High-rate DAF Technology Into Plant Design	
James K. Edzwald, John E. Tobiason, Tony Amato, and Lawrence J. Maggi	91:12:41
Design and Operation of High-rate Filters	
Susumu Kawamura	91:12:77

## Filtration

Big Advantages in Membrane Filtration	
Christopher T. Cleveland	91:6:10

Will Membranes Replace Conventional Treatment?	
<i>Roundtable</i>	91:6:24
Selecting MF to Satisfy Regulations	
<i>William A. Kelley and Roger A. Olson</i>	91:6:52
NF Performance at Full and Pilot Scale	
<i>Luke A. Mulford, James S. Taylor, David M. Nickerson, and Shaio-Shing Chen</i>	91:6:64
Influence of NF on Distribution System Biostability	
<i>Isabel C. Escobar and Andrew A. Randall</i>	91:6:76
Microfiltration Goes Hollywood: The Los Angeles Experience	
<i>Ali A. Karimi, James C. Vickers, and Richard F. Harasick</i>	91:6:90
Reduction of Bromate in a BAC Filter	
<i>Mary Jo Kirisits and Vernon L. Snoeyink</i>	91:8:74
Determining GAC Bed Life	
<i>Thomas E.T. Gillogly, Vernon L. Snoeyink, John C. Vogel, Claude M. Wilson, and Earl P. Royal</i>	91:8:98
Effect of Filter Media on Cyst and Oocyst Removal	
<i>Jeff Swertfeger, Deborah H. Metz, Jack DeMarco, Anne Braghetta, and Joseph G. Jacangelo</i>	91:9:90
Microbiological Quality Before and After Nanofiltration	
<i>Patrick Laurent, Pierre Servais, Dominique Gatel, Guy Randon, Pascal Bonne, and Jacques Cavard</i>	91:10:62
Factors Affecting Filtered Water Turbidity	
<i>Peter Lusardi and Phil J. Consonery</i>	91:12:28
Integrating High-rate DAF Technology Into Plant Design	
<i>James K. Edzwald, John E. Tobiasson, Tony Amato, and Lawrence J. Maggi</i>	91:12:41
Estimating the Porosity of a Full-scale Anthracite Filter Bed	
<i>R. Rhodes Trussell, Melissa M. Chang, John S. Lang, and Willie E. Hodges Jr.</i>	91:12:54
Conscientious Particle Counting	
<i>Annika M. Van Gelder, Zaid K. Chowdhury, and Desmond F. Lawler</i>	91:12:64
Design and Operation of High-rate Filters	
<i>Susumu Kawamura</i>	91:12:77
Rehabilitation of 1940s Water Mains	
<i>Bruce B. Hall</i>	91:12:91

## Finance

Financial Help for Utilities Along the US-Mexico Border	
<i>Craig E. Brackbill</i>	91:4:129
Benefit-Cost Analysis of the Stage 1 D/DBP Rule	
<i>Rosemarie Odom, Stig Regli, Mike Messner, John Cromwell, and Maggie Javdan</i>	91:4:137
Benefits and Costs of the IESWTR	
<i>Stig Regli, Rosemarie Odom, John Cromwell, Mike Lustic, and Valerie Blank</i>	91:4:148

## Fire sprinklers

Wet-pipe Fire Sprinklers and Water Quality	
<i>Steven J. Duranceau, Jack Poole, and Jacqueline V. Foster</i>	91:7:78

## Fluoride

Fluoride Concentrations in Drinking Water	
<i>James A. Lahumandier and Jackie L. Jones</i>	91:10:42

## Flushing, unidirectional

Unidirectional Flushing—A Powerful Tool	
<i>Edward N. Antoun, John E. Dyksen, and David J. Hildebrand</i>	91:7:62
(See also: Letters)	91:10:4)

## Geographic information systems

Converting Utility Data for a GIS	
<i>James R. Cannistra</i>	91:2:55

## Giardia

Uses of Protozoan Monitoring Data	
<i>Jennifer L. Clancy and Judi Hansen</i>	91:5:51
Evaluation of Four Commercial Antibodies	
<i>Rebecca Hoffman, Christian Chauvet, Jon Standridge, and Linda Peterson</i>	91:9:69
Effect of Filter Media on Cyst and Oocyst Removal	
<i>Jeff Swertfeger, Deborah H. Metz, Jack DeMarco, Anne Braghetta, and Joseph G. Jacangelo</i>	91:9:90
Committee Report: Emerging Pathogens—Viruses, Protozoa, and Algal Toxins	
<i>AWWA Research Division Microbiological Contaminants Research Committee</i>	91:9:110

## Granular activated carbon

Ferric Chloride Plus GAC for Removing TOC	
<i>Kirk O. Nowack, Fred S. Cannon, and Harish Arora</i>	91:2:65
Determining GAC Bed Life	
<i>Thomas E.T. Gillogly, Vernon L. Snoeyink, John C. Vogel, Claude M. Wilson, and Earl P. Royal</i>	91:8:98
Atrazine Removal by Preloaded GAC	
<i>Detlef R.U. Knappe, Vernon L. Snoeyink, Pascal Roche, Maria José Prados, and Marie-Marguerite Bourbigot</i>	91:10:97

## Groundwater

Distributing Groundwater Without a Disinfectant Residual	
<i>Beate Hamsch</i>	91:1:81
Nitrate Removal From Contaminated Groundwater	
<i>Sun Liang, Mary Ann Mann, Gerald A. Guter, Philip H.-S. Kim, and David L. Hardan</i>	91:2:79
Isotopic Uranium Activity Ratios in California Groundwater	
<i>Carolyn T. Wong, Howard S. Okamoto, Alexis M. Milea, S. Kusum Perera, and Frank J. Baumann</i>	91:4:171
Comparison of Mineral Acid Pretreatments for Sulfide Removal	
<i>Steven J. Duranceau, Robert K. Anderson, and Robert D. Teegarden</i>	91:5:85
NF Performance at Full and Pilot Scale	
<i>Luke A. Mulford, James S. Taylor, David M. Nickerson, and Shaio-Shing Chen</i>	91:6:64

## Humic substances

DBP Formation Potential of Aquatic Humic Substances	
<i>Michael L. Pomes, W. Reed Green, E. Michael Thurman, William H. Orem, and Harry E. Lerch</i>	91:3:103

## Hydrogen peroxide

- Oxidation of MTBE by Ozone and Peroxone Processes  
*Sun Liang, Leslie Soo Palencia, Richard S. Yates, Marshall K. Davis, Jeanne-Marie Bruno, and Roy L. Wolfe* .....91:6:104

## Information Collection Rule

- ICR Protocol—Alternative Treatment of Parasite Sample Data  
*Thomas B. Atherholt and Leo R. Korn* .....91:3:95
- NF Performance at Full and Pilot Scale  
*Luke A. Mulford, James S. Taylor, David M. Nickerson, and Shaio-Shing Chen* .....91:6:64
- ICR Crypto Data: Worthwhile or Worthless?  
*Frederick W. Pontius and Jennifer L. Clancy* .....91:9:14

## Interim Enhanced Surface Water Treatment Rule

- Complying With the Interim Enhanced Surface Water Treatment Rule  
*Frederick W. Pontius* .....91:4:28
- Benefits and Costs of the IESWTR  
*Stig Regli, Rosemarie Odom, John Cromwell, Mike Lustic, and Valerie Blank* .....91:4:148
- IESWTR Targets Poorly Performing Filtration Plants  
*Frederick W. Pontius* .....91:8:12

## Internet

- Surfing the Web for Water Quality Data  
*Gay Porter DeNileon* .....91:2:46
- Solving O&M Problems on the Net  
*Ellen G. Miller* .....91:5:10

## Ion chromatography

- Using Ion Chromatography to Detect Perchlorate  
*Howard S. Okamoto, Dharmendra K. Rishi, William R. Steeber, Frank J. Baumann, and S. Kusum Perera* .....91:10:73

## Ion exchange

- Nitrate Removal From Contaminated Groundwater  
*Sun Liang, Mary Ann Mann, Gerald A. Guter, Philip H.-S. Kim, and David L. Hardan* .....91:2:79
- Ion Exchange Softening: Effects on Metal Concentrations  
*Thomas J. Sorg, Michael R. Schock, and Darren A. Lytle* .....91:8:85
- Combined Arsenic and Nitrate Removal by Ion Exchange  
*Ganesh L. Ghurye, Dennis A. Clifford, and Anthony R. Tripp* .....91:10:85

## Lead and copper

- Desktop Guidance for Mitigating Pb and Cu Corrosion By-products  
*Marc Edwards, Sara Jacobs, and Donna Dodrill* ...91:5:66

## Leaks

- Inspecting Systems for Leaks, Pits, and Corrosion  
*Jon Makar and Nathalie Chagnon* .....91:7:36  
(See also: Letters .....91:11:4)

## Legislation/Regulation

- Federal Facilities Subject to SDWA Regulations  
*Frederick W. Pontius* .....91:1:18
- Enforcement Policy Issued for Y2K Testing  
*Frederick W. Pontius* .....91:2:16
- Complying With the Stage 1 D/DBP Rule  
*Frederick W. Pontius and William R. Diamond* ...91:3:16
- Complying With the Interim Enhanced Surface Water Treatment Rule  
*Frederick W. Pontius* .....91:4:28
- Crafting a Regulation for Radon in Drinking Water  
*Frederick W. Pontius* .....91:5:24
- SDWA Enforcement Provisions, Initiatives, and Outlook  
*Frederick W. Pontius* .....91:6:14
- Peer Review and Data Access  
*Frederick W. Pontius* .....91:7:20
- IESWTR Targets Poorly Performing Filtration Plants  
*Frederick W. Pontius* .....91:8:12
- ICR Crypto Data: Worthwhile or Worthless?  
*Frederick W. Pontius and Jennifer L. Clancy* .....91:9:14
- Negotiating Regulations for Microorganisms and Disinfection By-products  
*Frederick W. Pontius* .....91:10:14
- Y2K: Where Are We Now?  
*Frederick W. Pontius and Jon G. DeBoer* .....91:11:16
- Monitoring Unregulated Contaminants  
*Frederick W. Pontius* .....91:12:14

## Membrane processes

- Big Advantages in Membrane Filtration  
*Christopher T. Cleveland* .....91:6:10
- Will Membranes Replace Conventional Treatment?  
*Roundtable* .....91:6:24
- Selecting MF to Satisfy Regulations  
*William A. Kelley and Roger A. Olson* .....91:6:52
- NF Performance at Full and Pilot Scale  
*Luke A. Mulford, James S. Taylor, David M. Nickerson, and Shaio-Shing Chen* .....91:6:64
- Influence of NF on Distribution System Biostability  
*Isabel C. Escobar and Andrew A. Randall* .....91:6:76
- Microfiltration Goes Hollywood: The Los Angeles Experience  
*Ali A. Karimi, James C. Vickers, and Richard F. Harasick* .....91:6:90
- Microbiological Quality Before and After Nanofiltration  
*Patrick Laurent, Pierre Servais, Dominique Gatel, Guy Randon, Pascal Bonne, and Jacques Cavard* .....91:10:62

## Meters

- Economic Analysis for Replacing Residential Meters  
*Michael D. Yee* .....91:7:72

## Methyl isoborneol

- Determining GAC Bed Life  
*Thomas E.T. Gillogly, Vernon L. Snoeyink, John C. Vogel, Claude M. Wilson, and Earl P. Royal* .....91:8:98

## **Methyl tertiary butyl ether**

### **Oxidation of MTBE by Ozone and Peroxone Processes**

- Sun Liang, Leslie Soo Palencia, Richard S. Yates,  
Marshall K. Davis, Jeanne-Marie Bruno, and  
Roy L. Wolfe* .....91:6:104

## **Microfiltration**

### **Selecting MF to Satisfy Regulations**

- William A. Kelley and Roger A. Olson* .....91:6:52

### **Microfiltration Goes Hollywood: The Los Angeles Experience**

- Ali A. Karimi, James C. Vickers, and  
Richard F. Harasick* .....91:6:90

## **Microorganisms**

### **Medium-pressure UV for Oocyst Inactivation**

- Zia Bukhari, Thomas M. Hargy, James R. Bolton,  
Bertrand Dussert, and Jennifer L. Clancy* .....91:3:86

### **ICR Protocol—Alternative Treatment of Parasite Sample Data**

- Thomas B. Atherholt and Leo R. Korn* .....91:3:95

### **Uses of Protozoan Monitoring Data**

- Jennifer L. Clancy and Judi Hansen* .....91:5:51

### **Bacterial Levels of New Mains**

- Charles N. Haas, Mukul Gupta, Gary A. Burlingame,  
Raveendra B. Chitluru, and Wesley O. Pipes* .....91:5:78

### **Emerging Microbes 101: A Basic Course**

- Sue Murphy* .....91:9:10

### **USEPA Method 1622**

- Jennifer L. Clancy, Zia Bukhari, Randi M. McCuin,  
Zoë Matheson, and Colin R. Fricker* .....91:9:60

### **Evaluation of Four Commercial Antibodies**

- Rebecca Hoffman, Christian Chauret, Jon Standridge,  
and Linda Peterson* .....91:9:69

### **Assessing Ozone Disinfection With Nonbiological Surrogates**

- Benito J. Mariñas, Jason L. Rennecker, Susan Teeffy,  
and Eugene W. Rice* .....91:9:79

### **Effect of Filter Media on Cyst and Oocyst Removal**

- Jeff Swertfeger, Deborah H. Metz, Jack DeMarco,  
Anne Braghetta, and Joseph G. Jacangelo* .....91:9:90

### **Committee Report: Emerging Pathogens—Bacteria**

- AWWA Research Division Microbiological  
Contaminants Research Committee* .....91:9:101

### **Committee Report: Emerging Pathogens—Viruses, Protozoa, and Algal Toxins**

- AWWA Research Division Microbiological  
Contaminants Research Committee* .....91:9:110

### **Negotiating Regulations for Microorganisms and Disinfection By-products**

- Frederick W. Pontius* .....91:10:14

## **Nanofiltration**

### **NF Performance at Full and Pilot Scale**

- Luke A. Mulford, James S. Taylor, David M. Nickerson,  
and Shiao-Shing Chen* .....91:6:64

### **Influence of NF on Distribution System Biostability**

- Isabel C. Escobar and Andrew A. Randall* .....91:6:76

### **Microbiological Quality Before and After Nanofiltration**

- Patrick Laurent, Pierre Servais, Dominique Gatel,  
Guy Randon, Pascal Bonne, and  
Jacques Cavard* .....91:10:62

## **Natural organic matter**

### **Predicting Full-scale TOC Removal**

- Tai Tseng and Marc Edwards* .....91:4:159

## **Nitrate**

### **Nitrate Removal From Contaminated Groundwater**

- Sun Liang, Mary Ann Mann, Gerald A. Guter,  
Philip H.-S. Kim, and David L. Hardan* .....91:2:79

### **Combined Arsenic and Nitrate Removal**

- by Ion Exchange  
Ganesh L. Ghurye, Dennis A. Clifford, and  
Anthony R. Tripp* .....91:10:85

## **Nitrification**

### **Using Chlorite Ion to Control Nitrification**

- Michael J. McGuire, Nancy I. Lieu, and  
Marie S. Pearthree* .....91:10:52

## **Operators**

### **Training Center Targets Small System Operators**

- Yuefeng Xie, Charles A. Cole, and David A. Long* .....91:4:123

### **Helping Operators Improve Plant Performance**

- Susan K. Booth, C.B. Hagar, Randy J. Goss, J. Chris Lippe,  
and Jean A. Schulze* .....91:5:42

## **Oxidation**

### **Oxidation of MTBE by Ozone and Peroxone Processes**

- Sun Liang, Leslie Soo Palencia, Richard S. Yates,  
Marshall K. Davis, Jeanne-Marie Bruno,  
and Roy L. Wolfe* .....91:6:104

## **Ozone**

### **Modeling Enhanced Coagulation to Improve Ozone**

- Disinfection  
Daniel Urfer, Peter M. Huck, Graham A. Gagnon,  
Dennis Mutti, and Franklyn Smith* .....91:3:59

### **Oxidation of MTBE by Ozone and Peroxone Processes**

- Sun Liang, Leslie Soo Palencia, Richard S. Yates,  
Marshall K. Davis, Jeanne-Marie Bruno,  
and Roy L. Wolfe* .....91:6:104

## **Particle counting**

### **Conscientious Particle Counting**

- Annika M. Van Gelder, Zaid K. Chowdhury,  
and Desmond F. Lawler* .....91:12:64

## **Perchlorate**

### **Using Ion Chromatography to Detect Perchlorate**

- Howard S. Okamoto, Dharmendra K. Rishi,  
William R. Steeber, Frank J. Baumann,  
and S. Kusum Perera* .....91:10:73

## **Peroxone**

### **Oxidation of MTBE by Ozone and Peroxone Processes**

- Sun Liang, Leslie Soo Palencia, Richard S. Yates,  
Marshall K. Davis, Jeanne-Marie Bruno, and  
Roy L. Wolfe* .....91:6:104

## **Pipe**

### **Committee Report: Design and Installation of PE Pipe**

- AWWA Polyolefin Pressure Pipe and Fittings  
Committee* .....91:2:92

## Bacterial Levels of New Mains

- Charles N. Haas, Mukul Gupta, Gary A. Burlingame,  
Raveendra B. Chitluru, and Wesley O. Pipes ..... 91:5:78
- Inspecting Systems for Leaks, Pits, and Corrosion  
Jon Makar and Nathalie Chagnon ..... 91:7:36  
(See also: Letters ..... 91:11:4)

Yehuda Kleiner and Balvant Rajani ..... 91:7:47
- Cement-mortar Pipes as a Source of Aluminum  
Kenrick Berend and Tom Trouwborst ..... 91:7:91
- Rehabilitation of 1940s Water Mains  
Bruce B. Hall ..... 91:12:91

## Plant performance

- Helping Operators Improve Plant Performance  
Susan K. Booth, C.B. Hagar, Randy J. Goss, J. Chris Lippe,  
and Jean A. Schulze ..... 91:5:42
- This Old Plant Still Flies  
Walter Sweed ..... 91:10:12

## Privatization

- Trends in Privatization  
Joe A. Dysard II ..... 91:11:44

## Protozoa

- ICR Protocol—Alternative Treatment of Parasite  
Sample Data  
Thomas B. Atherholt and Leo R. Korn ..... 91:3:95
- Uses of Protozoan Monitoring Data  
Jennifer L. Clancy and Judi Hansen ..... 91:5:51
- USEPA Method 1622  
Jennifer L. Clancy, Zia Bukhari, Randi M. McCuin,  
Zoë Matheson, and Colin R. Fricker ..... 91:9:60
- Evaluation of Four Commercial Antibodies  
Rebecca Hoffman, Christian Chauret, Jon Standridge,  
and Linda Peterson ..... 91:9:69
- Effect of Filter Media on Cyst and Oocyst  
Removal  
Jeff Swertfeger, Deborah H. Metz, Jack DeMarco,  
Anne Braghetta, and Joseph G. Jacangelo ..... 91:9:90
- Committee Report: Emerging Pathogens—Viruses,  
Protozoa, and Algal Toxins  
AWWA Research Division Microbiological Contaminants  
Research Committee ..... 91:9:110

## Radionuclides

- Isotopic Uranium Activity Ratios in California  
Groundwater  
Carolyn T. Wong, Howard S. Okamoto, Alexis M. Milea,  
S. Kusum Perera, and Frank J. Baumann ..... 91:4:171
- Crafting a Regulation for Radon in Drinking Water  
Frederick W. Pontius ..... 91:5:24

## Radon

- Crafting a Regulation for Radon in Drinking  
Water  
Frederick W. Pontius ..... 91:5:24

## Rates

- Setting Reclaimed Water Rates  
Richard W. Cuthbert and Ann M. Hajnosz ..... 91:8:50
- Using Conservation Rate Structures  
Jeffrey L. Jordan and Rick Albani ..... 91:8:66

## Reengineering

- Multiple Benefits of Reengineering  
Michael Gritzuk, Wayne S. Janis, Edward G. Blundon,  
and Joe Myers ..... 91:11:48

## Regulations

- Federal Facilities Subject to SDWA Regulations  
Frederick W. Pontius ..... 91:1:18
- European Regulations on Residual Disinfection  
Owen Hydes ..... 91:1:70
- US Regulations on Residual Disinfection  
Susan E. Shaw and Stig Regli ..... 91:1:75
- Enforcement Policy Issued for Y2K Testing  
Frederick W. Pontius ..... 91:2:16
- More Regulations on the Horizon  
Lisa Raysby ..... 91:3:14
- Complying With the Stage 1 D/DBP Rule
